

Clinic Guide

HIV Specialty Clinics and Dental Clinics Serving People Living with HIV/AIDS In the Greater Philadelphia Area

Updated for June 2010

<u>Contents</u>	<u>Page Number</u>
• HIV Specialty Clinics by Neighborhood and Zip Code	2
• A to Z listing of HIV Specialists	4
• A to Z listing of HIV Specialty Clinics	8
• Dental Clinics by Neighborhood and Zip Code	22
• A to Z list of Dental Clinics	23

HIV Specialty care is important for people living with HIV/AIDS

*Everyone living with HIV/AIDS in the Philadelphia area can see an HIV Specialist, **regardless of their ability to pay.***

HIV Specialists are medical providers who:

- See many people living with HIV/AIDS (at least 20 in the last 2 years)
- Keep up to date on HIV treatment changes

Regular dental care is important for people living with HIV/AIDS

It is recommended that everyone visit a dentist every six months. This is especially important for people living with HIV/AIDS, because:

- Medications that fight HIV can have side effects that create changes in the mouth
- Symptoms of opportunistic infections (OIs) can appear in the mouth first

Inclusion in this guide does not indicate quality of care provided. Please report any errors to staff at the AIDS Library at 215-985-4851, fax to 215-985-4492, or email library@aidslibrary.org.
